withdraw the indictment hanging over Weisenberg, provided the latter would go on the stand as a Commonwealth's witness. To this Weisenberg consented, but his testimony was unimportant.

Mrs. Probst, Mabel's sister, who was to-day recalled to the stand, testified that Weisenberg had said that for five dollars he could have both Eckstein and Mabel put out of the way.

Jennie Confid, a young woman employed at the St. Chaffies Hotel, this city, testified that Mabel Bechtel and Weisenberg visited her at the hotel.

Counsel for the defense asked the witness a question concerning the character of the hotel. The district attorney objected, and defendant's counsel said:

"I believe we can show the reputation of a house, as well as that of a person. We wish to do this, because it is part of the defense's theory that Mabel received her hjuries in a house of that character. her injuries in a house of that character. We further wish to show the nature of the places Mabel visited that night."

You certainly know of some one who is sick—some sufferer who will be grateful for the help my book offers.
And that book tells of a way to help. Tells of a way so certain that I, as a physician, offer that help on trial. The book tells how for 30 years in hospitals and at bedsides I searched for a way to cure deep-seated and difficult diseases. It tells how I perfected by prescription—Dr. Shoop's Restorative. How by scientific experiment I traced out the causes that bring on chronic diseases.
I found invariably that where there was a weakness, the inside nerves were weak. Where there was a lack of vitality, the vital nerves lacked power. Where weak organs were found, I slways found weak nerves. Not the nerves commonly thought of, but the vital organs' nerves. The inside—the invisible nerves.
This was a revelation. Then my real success began. Then I combined ingredients that would strengthen, that would vitalize, these nerves.
That prescription I called a restorative. It is known the world over now as Dr. Shoop's Restorative. After that I did not fail to cure one case in each hundred. In the extremely difficult cases, my failures for five years were one in each forty treated. I found cancer incurable. Cancer is for surgery, not medicine.
Then how to get this prescription to sick ones everywhere was my thought. I must announce it in the public press. But, thought I, will they realize the real truth of my discovery, the real power of Dr. Shoop's Restorative? Then a way came to me—like an inspiration. "I will offer it to the sick on trial. Then they will know I am sincere—that my prescription is unusual."
I wrote a reliable druggist in each city and village in America, They agreed to co-operate with me. Now by any sick one

CONFEDERATE FLAG WAVED OVER NAVIGATOR ISLANDS

OVER NAVIGATOR ISLANDS

A story of a Kentuckian's love for the old Confederate flag has just come to light through the travels of Capitain Schuyler, an ex-Federal cavalryman from Chio. During his tour of the world, Capitain Schuyler visited many piaces, and on one journey to the South Pacific Islands, found a maive fisherman, flying the Confederate flag from the mast of his little boat. The story of the flag and its possessor is told by Capitain Schuyler, in the United Service Gazette, a military markels. v. Upon examination he found the flag to be one of those which intil gone through the war, and its history, with its pathetic story of devotion, with its pathetic story of devotion, with its pathetic story and love for the ilag is one which is of unusual interest.

Thousands of people, mostly residents of Jackson Ward, visited the scene during those three days. Few of them could make out anything but flaws on the glass, but the Corbin woman said she saw the blkeness of two next door neighbors who had recently passed away.
